

Environmental Policy

CHH Conex Limited is based in Witton, Birmingham and its activities include cable assembly design and manufacture, factory integration of racks and cabinets and management of materials for customers. In carrying out these activities it is recognised that there is an impact on the Environment. CHH Conex Limited is committed to minimising the impact of its activities on the environment and will:

- Operate an Environmental Management System (EMS) that meets the requirements of the international standard ISO 14001:2015
- Protect the environment and prevent pollution
- Comply with relevant environmental legislation and any environmental obligations
- Set objectives to continually improve environmental performance and the EMS

Following an analysis of how our operations impact on the environment we have decided to focus on the following areas: optimising energy consumption, reducing resources used, reducing and recycling waste.

This policy statement will be reviewed on a regular basis and will be made available to interested parties upon request and available on our website

Tim Hughes

Managing Director
